V3 FRAME SLIDERS KIT 2.0

YAMAHA YZF R6

year of production: '06-'16

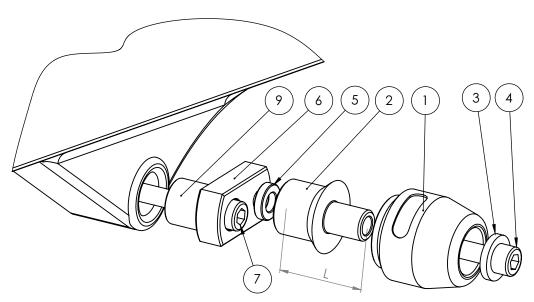

product code: SR175

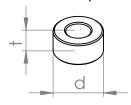

Assembly instructions

of the engine do not loosen the bolts.

- 1. Remove the original bolts indicated with the arrows on the assembly position scheme above.
- 2. Replace the original bolt by the new mounting bolt (parts #7), the spacer 1 (parts #9) and adapter (part #6) according to the scheme on the right page. Put the adapter (part #6) in the right position according to the drawing on the right page.
- 3. Assemble the slider, round cylindrical body, the bolt and the steel sleeve (parts #1, #2, #3 and #4) according to the drawing on the right page. Please note that aluminium spacer (part #5) appears on the left side between part #2 and part #6. Put them into the threaded hole in adapter (part #6).
- 4. Same operation is required in another side of the motorbike. We suggest to use the threadlocker (eg. Loctite®) to make sure that the vibrations
