

BMW Motorrad

Workshop installation instructions

Luggage carrier for topcase

Before commencing work, you must read these installation instructions through carefully and make sure you understand them fully.

BMW Motorrad recommends having this installation kit installed by a specialist workshop with the requisite special tools, preferably an authorised BMW Motorrad dealer.

Incorrect installation and incorrect handling give rise to considerable safety risks.

The symbols used to draw attention to safety instructions in this manual are as follows:

Warning

This symbol stands for precautions and measures which are essential in order to protect the rider and other persons from possibly severe or fatal injury.

Attention

Specific instructions and safety precautions intended to prevent damage to the motorcycle and accessories. Non-compliance can void the warranty.

Note

Specific instructions on how to operate, control, adjust or look after items of equipment on the motorcycle.

Tightening torque

Screws, bolts and nuts are tightened in accordance with the applicable DIN/ISO standards. Tightening torques that deviate from the standards are stated. Non-compliance can result in damage to the motorcycle or accessories or can endanger the rider.
